Career Objective

Junior Full Stack Developer with hands-on experience building scalable applications using **Next.js, JavaScript, Node.js, MongoDB, and React.js.** Contributed to AI-powered dashboards and production-ready features at **GitHub**, focusing on performance, security, and user experience.

Skills

- **Client-side:** JavaScript (ES6+), React.js, Next.js, TypeScript, Tailwind CSS, HTML5, CSS3.
- **Server-side:** Node.js, Express.js, MongoDB, PostgreSQL, Prisma ORM, Mongoose.
- **Tools:** Git, GitHub, REST APIs, Redux, Firebase, JWT.
- **Soft Skills:** Problem Solving, Teamwork, Communication.

Professional Experience

Junior Full Stack Developer (AI SaaS) | **SaaSFramer LLC**
March 2026 – Present

- **BoundBot:** Developing modern dashboards and AI-driven features using **Next.js 15** and **Tailwind CSS v4** for the BoundBot platform.
- **Mobile Development:** Built a **'Money Tracker'** mobile application leveraging **React Native** and **Supabase** for efficient data management.
- **QA Testing:** Ensuring system reliability and frontend feature stability through automated end-to-end testing with **Cypress**.
- **Project Analysis:** Actively contributing to various SaaSFramer projects and conducting comparative performance analysis against platforms like **Chatbase**.

Projects

1. Project Name: MoM and Baby Wear – Ecommerce Website
   - **Project Features:**
     - Developed a secure MERN platform featuring **JWT authentication** and role-based access.
     - Implemented **dynamic product filtering** and a real-time **Cart system** for seamless shopping.
     - Optimized UI for high performance and full responsiveness across all device types.
   - **Technologies Used:** Next.js, TypeScript, PostgreSQL, Prisma, Node.js, Express.js, Redux.
   - **Live Site** | **Client Repository** | **Server Repository**

2. Project Name: Developer Portfolio – Personal Showcase
   - **Project Features:**
     - Integrated **NextAuth** to provide secure admin access for portfolio content management.
     - Built interactive **skill-based data visualization** using Recharts for a professional display.
     - Designed an SEO-friendly and highly responsive layout to showcase projects effectively.
   - **Technologies Used:** Next.js, TypeScript, Tailwind CSS, PostgreSQL, Prisma, Express.js.
   - **Live Site** | **Client Repository** | **Server Repository**

3. Project Name: Digital Wallet App – Financial Platform
   - **Project Features:**
     - Engineered a secure financial platform with **user authentication** and protected transaction routes.
     - Implemented **role-based access** to manage transactions and maintain account security.
     - Developed a real-time dashboard for accurate balance tracking and transaction history.
   - **Technologies Used:** React.js, Redux, Node.js, Express.js, MongoDB, Tailwind CSS.
   - **Live Site** | **Client Repository** | **Server Repository**

COURSE & EDUCATION

- **Full Stack & MERN Development** – Ostad (2026) | Cert 1 | Cert 2
- **B.Sc in CSE** – Daffodil International University (2022–2025)

Language

- **Bangla:** Native.
- **English:** Conversational.
